- *Knows how to judge the pertinence of information, critique sources and check source reliability.*
- *Designs and implements information-gathering and management systems using suitable technology.*
- *Addresses issues relating to the security and life cycle of data.*
- *Seeks out support from experts in information and data management.*

**PHASE 3 Expertise and methods**

1. Masters the basic knowledge and key concepts of his field and knows their history and their significance. 2. Is familiar with recent progress in fields related to his own. 3. Can view his research activities within an international context. 4. Is able to formulate problems and hypotheses according to needs. 5. Organizes his presentations in a clear, informative and concise manner.

- *Makes recognized contributions to the advancement of knowledge and innovation.*
- *Is viewed as an international authority.*
- *Possesses in-depth and comprehensive understanding of the strategic orientation of his field of*

## Personal and relational qualities

- expertise.*
- *Sees opportunities for synergy among different sectors of activity.*
- *Has the ability to develop new investigative methods.*
- *Can work in an interdisciplinary setting.*
- *Is able to devise and coordinate a collective work program focusing on new research problems.*

### PHASE 3 Communication

1. Adapts his register to communicate with experts in other fields at both the national and international levels. 2. Is able to work and lead a group in at least English and one other world language. 3. Uses national and/or international media. 4. Is asked to provide input on key questions in his area of expertise. 5. Chooses content, register and channels of communication appropriate for the circumstance or to serve his strategy.

- *Is asked to provide input on key questions in his area of expertise.*
- *Chooses content, register and channels of communication appropriate for the circumstance or to serve his strategy.*
- *Uses national and/or international media.*
- *Can manage and negotiate complex matters English and at least one other world.*
- *Initiates and promotes actions to disseminate knowledge.*

### PHASE 3 Collaboration

1. Develops and maintains cooperative networks. 2. Knows how to build a professional network for his own and the company's benefit.

- *Can identify and mobilize various networks.*
- *Sets up cooperations with a range of external organizations, at both national and international levels.*

### PHASE 1 Analysis, synthesis and critical thinking

1. Analyzes his own findings and those of his peers. 2. Pursues his reasoning and hypotheses free of dogmatism or ideological bias. 3. Stimulates critical thinking among his peers and his staff. 4. Takes a pioneering approach.

- *Analyzes his own findings and those of his peers.*
- *Is able to synthesize; expresses key ideas clearly.*
- *Can sort and rank information according to the goal.*
- *Pursues his reasoning and hypotheses free of dogmatism or ideological bias.*
- *Has the objectivity to consider various schools of thought; is able to modify his point of view.*
- *Demonstrates intellectual rigor.*

### PHASE 3 Open-mindedness and creativity

1. Demonstrates an ability to acquire knowledge; shows flexibility and open-mindedness. Engages in interdisciplinary activities. 2. Interacts with and seeks the collaboration of professionals of different cultures; knows how to accommodate cultural differences. 3. Explores related fields. 4. Has acquired professional experience abroad in a culture other than his own. 5. Knows how to take calculated risks by questioning existing knowledge and methods. 6. Develops cultural diversity and intercultural dialogue within his teams.
